

CUSTOMER SHOPPING BEHAVIOR

Customer Shopping Behavior

Growth, loyalty, merchandising, and conversion quality

A vertical strip of marbled paper with intricate, wavy patterns in shades of brown, gold, and blue, running along the left edge of the slide.

01 · CUSTOMER BASE

The growth gap is loyalty, not acquisition

3,900 purchases

The dataset spans four categories, 25 products, 50 locations, and customers ages 18–70.

Customer base

3,116 customers are Loyal, versus **701** Returning and **83** New.

Implication

The next growth lever is monetizing repeat behavior, not simply adding reach.

Revenue is concentrated in a few customer and product patterns

Revenue is led by male customers, Clothing, and Young Adults.

Gender: male customers generated \$157,890 versus \$75,191 from female customers.

Category: Clothing leads revenue at approximately \$90K, followed by Accessories at approximately \$70K. Age: Young Adults contribute the highest total revenue at \$62,143.

Subscriptions reach only one in four customers

27%

of customers subscribe

1,053 customers subscribe; 2,847 do not.

Spend: average purchase amount is nearly flat between subscribers at \$59.49 and non-subscribers at \$59.87.

Opportunity: subscriptions need a clearer value exchange, not just a generic enrollment prompt.

Loyalty is already strong, but subscription conversion trails it

958

repeat buyers subscribe, versus **2,518** who do not.

Strategic read: repeat purchase behavior is the most credible audience for a subscription offer.

3,476 customers have more than five purchases.

Discounting is
doing more work
in selected
product lines

50.00%

Highest discount rate: Hat.

Separate traffic-driving promotions from
products that can sustain full-price
demand.

Signal: these products may depend more heavily on promotion to convert.

Product demand and product love are not the same thing

Top-rated

Gloves 3.86
Sandals 3.84
Boots 3.82
Hat 3.80
Skirt 3.78

Top sellers

Jewelry leads Accessories with 171 orders.
Blouse and **Pants** lead Clothing with 171 each.
Sandals lead Footwear with 160.

Action: use ratings to build confidence and order volume to anchor merchandising.

Shipping speed commands a modest willingness to pay

\$60.48

Average purchase with Express shipping

\$58.46

Average purchase with Standard shipping

Read: customers paying for speed spend about \$2 more per order.

Action: position express delivery as a premium convenience, not only a logistics option.

Three moves can convert behavior into growth

01

Target repeat buyers

Offer subscription benefits at the moment of the fifth purchase.

02

Protect margin

Review discount-heavy products and test narrower promotions.

03

Merchandise with proof

Pair top-rated products with category best sellers in campaigns.

Measure the next quarter by conversion quality

Subscription

Track repeat-buyer conversion into the program.

Margin

Monitor discount rate and full-price mix by product.

Merchandising

Track revenue, orders, and rating together by category.

Audience

Prioritize Young Adults and other high-revenue age groups, then test express-shipping offers.
